PHILADELPHIA, PENN.,

Assay Department, April 5, 1881.

Hon. A. London Snowden

Superintendent &c &c.

Sir

In reference to the inquiry made by the Special Agent of the Treasury Department, I have to inform you, for him, that the sample sent by him for assay, contains ninety four & 3 tenths (94.3) per cent. metallic nickel, the remainder being copper. It is therefore dutiable as nickel only; 30c. per pound.

The article dutiable at 20 c. per pound, should in our opinion contain not over one-half nickel.

Very respectfully,

W E DuBois
assayer
